BHARANIDHARAN R
FRONTEND DEVELOPER

Dedicated Frontend Developer specializing in healthcare solutions with a track record of success in developing and maintaining user-friendly web applications. Collaborate effectively with cross-functional teams to ensure the seamless integration of design and functionality.

Experience

02/2022 - Current
Mocero Health Solutions- IIT Madras Incubation Startup
Frontend Vuejs Developer

I have been employed as a Frontend Developer at Mocero Health Solutions since February 2022. During my tenure, I have specialized in crafting Websites and Web Applications utilizing HTML, CSS, jQuery, Bootstrap, and the Vue.js Framework.

Projects:

- **CRM Application:** Employing BootstrapVue and Primevue Frameworks, I developed responsive web pages for a comprehensive CRM system. Additionally, I integrated APIs using Javascript for seamless functionality.The website is accessible here.
- **Inventory Management System:** Leveraging BootstrapVue and Primevue Frameworks, I designed responsive web pages for an efficient inventory management application. Similarly, I integrated APIs using Javascript for optimal performance.The website is accessible here
- **Communication Platform:** Utilizing BootstrapVue and Primevue Frameworks, I created responsive web pages for a robust communication platform. API integration using Typescript ensured smooth communication flow.The website is accessible here
- **User Management:** Utilizing BootstrapVue and Primevue Frameworks, I created responsive web pages for a robust communication platform. API integration using Typescript ensured smooth communication flow.The website is accessible here
- **Hospital Management System (HMS):** Employing HTML, CSS,JQuery and Bootstrap 3, I crafted responsive web pages for an all encompassing HMS application. You can view the application here.
- **Mocero Health Solutions Website:** Using HTML, CSS, and Bootstrap 5, I developed a responsive website from scratch. Additionally, I utilized JavaScript and API to implement a streamlined mail delivery system. The website is accessible here.
- **Medway Hospitals Website:** Developed from the ground up using HTML, CSS, and Bootstrap 3,Javascript I created a responsive website for Medway Hospitals. You can visit the website here.
- **GBR Hospitals Website:** Similar to the previous projects, I constructed a responsive website for GBR Hospitals using HTML, CSS, and Bootstrap 3,Javascrript. The website is available here.
- **Transtan Website:** I designed responsive web pages including galleries, media sections, and articles for Transtan using HTML, CSS, and Bootstrap 3,Javascript. You can explore the pages here.
